The EVALUATOR OF PERSONALITIES

In the season just closed some interesting events were recorded at the boxoffice—that common denominator of pictures and picture personalities.

For instance, only one picture more than in the previous season, scored above the 115 per cent mark; but there were 11 more that hit higher than 125 per cent; and one picture scored a top mark of 215 per cent, coincidentally the same high mark set two seasons before by "Snow White and the Seven Dwarfs."

While there were 13 more regular feature releases this current season than last, the percentage of those hitting higher than average was approximately five per cent less. There were fewer westerns in 1939-40 but a larger percentage of big hits.

Quite a crop of new names came out among the top-rankers in all divisions. However, there were few displacements among yesteryear's crown wearers.

Ratings published herein are computed on boxoffice reports on all pictures that played first runs in large metropolitan centers, in cities of intermediate size and in small towns in typical situations throughout the country. The mean average is struck by totaling the percentages and dividing by the number of runs. Pictures with fewer than five runs were not figured, as fair averages could not be computed thereon.

It is fitting to compare boxoffice returns of a motion picture with the box score of a baseball game. In both the figures recorded provide an accurate record of the abilities of the participants as well as of the game (picture) itself.

Batting averages are affected by the number of times a player goes to bat. Thus, a ballplayer who goes to bat only once and scores a hit will have 1,000 per cent, while the player who goes to bat many times more has a lesser chance of attaining the perfect score.

So it is with motion pictures, which "go to bat" every time they have a playdate. The opening "score" may hit the top mark; only to be reduced by subsequent playings; or the reverse may be the case.

On the pages that follow there is presented the boxoffice record of the pictures released during the 1939-40 season; of the producing companies; of their stars, directors, producers and writers. These records tell their own important story.

EDITOR'S NOTE: *Inasmuch as "Gone With the Wind" was not on the regular Metro-Goldwyn-Mayer schedule for 1939-40, but made roadshow playings at advanced prices only, it is given this special treatment and set apart from the regular releases. Consequently, the 361 per cent record it established was not given consideration in establishing the average records of those connected with its making, which appear in their respective departments in this edition.*

IN A CLASS BY ITSELF

Say Exhibitors—

"I received a very nice compliment on your PICTURE GUIDE, DATE AND RECORD BOOK from my boss, Mr. Benj. T. Pitts, president of Pitts' Theatres, Inc. He inspected my book and was very high in his praise of the completeness of information regarding all phases of coverage."

J. T. PITTS,
East End Theatre,
Richmond, Va.

"Early this year, we received through your courtesy, your PICTURE GUIDE, DATE AND RECORD BOOK. We have found this book to be very helpful in our booking department."

J. A. THOMPSON,
Associated Theatres, Ltd.,
Toronto, Ont., Canada.

"I use the PICTURE GUIDE, DATE AND RECORD BOOK constantly and think it one of the necessities of an exhibitor. The new Guide, with the fillers, is much the best."

WALLACE W. DEUPREE,
Woodbine Theatre,
Woodbine, Iowa.
